

Physics

Faculty of Physics

Faculties Website
<https://www.physik.tuwien.ac.at/aktuelles/>

The Faculty of Physics conducts cutting-edge experimental and theoretical basic research, as well as numerous applied research projects in international cooperation with recognized research institutes and universities. Physics plays a central role in the understanding of our laws of nature as well as in our everyday life. Cell phones or GPS would be unthinkable without physics. More than almost any other science, advances in physics have revolutionized our view of space and time, from the elementary particles of the microcosm to the structure of the universe, over the last 100 years.
